J. Paul Brown

Colorado House District 59

Growing Colorado's economy and job creation continues to be a top priority for voters throughout the state. As a legislator, what is the one thing you believe that you could do have the greatest impact on improving Colorado's business climate?

Eliminate unneeded regulation.

In 2009, Colorado enacted rules and regulations for the oil and gas industry that are widely considered the most comprehensive and restrictive in the nation. Recently, local government have sought to implement their own set of regulations, many of which are preempted by existing state rules. Given the uncertainty that a patchwork of local regulations would create for the energy industry, would you support legislation banning local governments from creating new regulations?

Yes.

Greater access to oil and gas reserves throughout the United States and here in Colorado has dramatically increased our potential domestic energy supply. The use of a time tested technology known as hydraulic fracturing has been a significant contributor to the energy industry's ability to capture resources that would otherwise be out of reach. Despite a long history of safely utilizing hydraulic fracturing technology, some interest groups are advocating for an outright ban on its use. As a legislator, would you support a ban on hydraulic fracturing – and if so, why?

I would never support a ban.

Colorado's Medicaid program is going at an unsustainable rate, threatening to consume a greater portion of the state's General Fund. As Medicaid costs continue to grow, fund for K-12, Higher Ed, and other important funding priorities are reduced. As a legislator, would you support reforms to Colorado's Medicaid program and if so what possible solutions would you offer?

Yes, I would support reforms to eliminate fraud and abuse and other reform that will save money.

The Supreme Court's decision on the Patient Protection and Affordable Care Act affirmed that states cannot be coerced by the federal government into expanding Medicaid beyond current levels. State lawmakers will have to decide whether or not they want to expand Medicaid as part of the implementation of new health care law or opt out of the expansion

altogether. As a legislator, would you support the State of Colorado opting out of the Medicaid expansion – why or why not?

Yes, I would support opting out of Medicaid expansion.

Currently, when a bill is introduced the Office of Legislative Council issues a fiscal note indicating the potential fiscal impact the proposed legislation would have on state revenue. There have been efforts recently to create a similar impact statement for businesses. The creating of a business impact statement would allow businesses to weigh in on the impact that a bill would have on their industry. Would you support the creating of a business impact statement – why or why not?

Yes, I would support a business impact statement so that we know more closely what the real costs are.

Colorado currently assesses an income tax to both distributed and undistributed income from irrevocable trusts managed in the state. Some states only apply an income tax to distributed income and have experienced dramatic growth in individual irrevocable trust assets managed in their respective states. In order to eliminate the double taxation in Colorado, ensure our state is positioned to create good paying financial sector jobs and capture additional tax revenue without raising taxes, would you support the elimination of the income tax on undistributed income?

Yes.
